Press Release

Idemitsu Kosan Co.,Ltd.  
LG Chem, Ltd.

## **Collaborative Relationship in OLED Material Business Idemitsu and LG Chem Signed Collaboration Agreement**

**Idemitsu Kosan Co.,Ltd. (Head Office: Chiyoda-ku, Tokyo; Representative Director and CEO: Takashi Tsukioka, hereinafter “Idemitsu”) and LG Chem, Ltd. (Head Office: Seoul, Korea; CEO: Jin-Soo Park) concluded a collaboration agreement that allows each party to use the other party’s OLED material-related patents in certain areas.**

In the remarkably fast-expanding OLED market, Idemitsu and LG Chem are both leading OLED material companies and have continued to supply a variety of high-performance OLED materials to customers.

Under this collaborative relationship, each company will be allowed to develop, manufacture and sell OLED materials in certain areas of the other company’s material-related patents under specified conditions. This will help to accelerate the generation of new high-performance materials (higher efficiency, longer life time, etc.), by allowing both parties to exploit undeveloped areas of OLED materials with different knowledge and experience.

Through this cooperative arrangement, both companies will strongly support the OLED business of LG Display Co., Ltd. in terms of OLED materials. Also, both companies will offer the outcome of this collaboration to other display companies, and will strive to expand their respective OLED material business.
