

COVID-19 infection confirmed at our overseas office (Second Report)

We are pleased to inform that the employee, working at Idemitsu Lube Middle East & Africa FZE(Manager: Jun Kobayashi, Location: Dubai, hereinafter: ILMEA), who was diagnosed with COVID-19 infection, has confirmed negative for COVID-19 on May 23, by a PCR Diagnostic Panel Test, and was discharged from hospital.

The four employees who had close contact with the infected employee have all confirmed negative as of May 6. Disinfection and sterilization operation of the headquarter building and common area was completed on May 10, under the supervision of local authority, and was permitted to restart operation at ILMEA headquarter.

We will continue to make every effort to prevent further spread of the virus and to securing a stable supply of our products.
