

Features

- No zipper-sealing system required on the packaging machine
- Compatible with existing FFS packaging machines
- Easy to open using an opening tape—no scissors required

Pre-Applied Zipper Film

FFS Packaging

POCKETZIP Packaging

POCKETZIP™

① Pulling the TAB of a built-in tear tape

② easy-to-open

③ The mouth of the bag is like a pocket

- When opening an ordinary zipper pouch, the upper part of the notch will break.
- POCKETZIP has an excellent pouch design because the upper part of the pouch remains intact even after opening it.
